SOC 4650/5650: Lecture 12 ArcMap Processes

Christopher Prener, Ph.D.

Spring 2018

Customizing Symbols

Scroll down in the Symbol Selector to access different symbols. These will vary based on the type of feature selected. Make special note of this for labels, where highway shields are an option!

Merge

Geoprocessing ▷ Merge and then fill out the Merge window. All features should be listed as Input Features.

Intersect

Geoprocessing ▷ Intersect and then fill out the Intersect window. All features should be listed as Input Features.

Union

Geoprocessing ▷ Union and then fill out the Union window. All features should be listed as Input Features.
